

THE ALL NEW 2016 CTS-V

THE BEAST WITHIN

CTS-V breathes power using a 6.2L supercharged V8 engine with 640 hp and 855 Nm of torque. With this power aggregate, the lightest in its class, CTS-V will be launched to a top speed of 320 KM/H on the racetrack and hits 96 KM/H in 3.7 seconds. The compact four-lobe Eaton® supercharger works hand in hand with Active Fuel Management®, providing pristine engine performance for everyday driving.

8-SPEED AUTOMATIC

CTS-V houses an 8-speed automatic transmission that smoothly assists in quickly reaching top speed. By maintaining power band, it keeps engine performance at its peak. And Launch Control paired with magnesium paddle shifters gets you off the line fast and in control.

The road is yours to command.

THE THRILL DOESN'T STOP WHEN YOU DO

CTS-V is stacked with six piston front and four piston rear Brembo® brakes¹, providing durability, consistency and the capability for track-day performance straight from the factory. Specifically designed and tuned for V-series, Michelin® Pilot® Super Sport summer-only tires² deliver exceptional grip in performance driving situations. Simultaneously, they provide excellent ride quality and extended tread wear for everyday driving.

1. Vehicles equipped with High-Performance brake linings will experience faster accumulation of brake dust on wheel surfaces and may produce more noise than with standard linings.

2. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, please consult your Cadillac dealer.

UNCOMPROMISED CONTROL

Magnetic Ride Control™ reads the surface conditions at a rate of 1,000 times a second, ensuring incredible performance handling. Third-generation improvements enable 40-percent faster damping response.

DRIVE RESPONSIVELY

A personalized drive, no matter the variable. Four selectable drive modes assist in adjusting the suspension for ultimate responsiveness and control. Choose from Tour, Sport, Track and Snow.

THE HIGHLIGHT REEL

The dual nature of CTS-V becomes clear with the available Performance Data Recorder. With real-time audio and video with four overlays (Sport, Track, Performance and Tour) of performance data from 30 signal channels allows you to replay your races and analyze your driving performance on the Cadillac CUE³ display. You can save the footage on the SD card to watch or share your performance later.

3. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.

ON YOUR MARK

Performance Traction Management provides you with competition spec traction and stability controls. Adjust to conditions with five modes specifically for the track: Wet, Dry, Sport 1, Sport 2 or Race.

BEAUTY IS A POWERFUL THING

Make your double take a fast one. Every curve, edge and line of the CTS-V was deliberately chosen to ensure the best aerodynamic results. Its exclusive V grille, hood and fender vents maximize airflow, while the finely tuned quad exhaust announces your arrival.

FIRST IN COMMAND

For those who prefer to remain in control. A reconfigurable Head-Up Display gives you the luxury of keeping your eyes on the road while staying informed with vehicle data. And the unique-to-V reconfigurable cluster provides you with a performance layout.

THE LAP OF LUXURY

Intricate matte carbon fiber trim, signature V thick rim steering wheel, sueded microfiber headliner and accents turn the CTS-V interior into a cockpit worth a thousand words. Take control in the track-oriented, 20-way seating or in the available race-inspired RECARO® seats.

A close-up, low-angle shot of a car's air vent, showing the curved blades and the surrounding body panels. The lighting is dramatic, highlighting the metallic and plastic textures.

SPECS CTS-V SEDAN

- Engine – 6.2L V8 Supercharged
- Horsepower (est.) – 640 hp
- Torque (est.) – 855 Nm
- Drive Type – RWD
- Transmission – 8-Speed Automatic
- 0-96 KM/H (est.) – 3.7 seconds
- Top Speed – 320 KM/H
- Wheelbase – 2,911 mm
- Length – 5,019 mm
- Width – 1,834 mm
- Height – 1,453 mm
- Weight Distribution – 53.6% front
